

5S CONTINUOUS IMPROVEMENT TRAINING

**5S Continuous
Improvement
Training Course**

COURSE LENGTH: 0.5 DAYS

5S is a continuous improvement method based on the consistent implementation of these five activities: Sort, Simplify, Sweep, Standardise and Sustain. 5S is widely used in Japan to improve and maintain cleanliness, orderliness and efficiency as well as to reduce errors and waste in the workplace.

This course teaches you the origins and concept of 5S, how to use 5S to identify opportunities for improvement and the benefits from its proper implementation. You also learn how 5S can encourage every member of the organisation to participate and contribute small changes that collectively produce significant improvement in their workplace.

The 5S Continuous Improvement Training Course is now offered in London, Birmingham, Leeds, Glasgow, Sheffield, Bradford, Edinburgh, Liverpool, Manchester and UK wide.

5S CONTINUOUS IMPROVEMENT TRAINING COURSE OUTLINE

FOREWORD

5S is much more than just "housekeeping". Housekeeping and an organised workplace are the results of 5S, but the real purpose of 5S is to uncover errors and problems more quickly.

Learn to reduce waste through a systematic application of 5S principles – Sort, Set in Order, Shine, Standardize, and Sustain. This workshop teaches the basic 5S techniques and illustrates that its implementation immediately reduces waste and provides a cleaner, safer work environment.
