

LEAN SIX SIGMA AWARENESS TRAINING

COURSE LENGTH: 0.5 DAYS

Before the implementation of a Lean Six Sigma Program, it is essential that all employees understand its objectives and the terminology to be used. The Lean Six Sigma Awareness Training Course is the introductory course to prepare your people to become team members of future lean six sigma projects.

This course covers the following topics: the six sigma terminology, principles and goals, the role of each employee as process team members, the benefits of implementing lean six sigma, the importance of their willingness and ability to contribute to Continual Improvement Projects and much more.

This comprehensive course is now available in London, Birmingham, Leeds, Glasgow, Sheffield, Bradford, Edinburgh, Liverpool, Manchester and UK wide.

LEAN SIX SIGMA AWARENESS TRAINING COURSE OUTLINE

FOREWORD

As a company implements a Lean Six Sigma Program it is essential all employees understand the objectives and terminology to be used.

This course helps demistify the terminology, and goals of Six Sigma Continuous Improvement projects, thereby reducing fear, and empowering everyone to contribute.

Teams will be formed to conduct improvement projects. The “talk of the town” will be Lean Six Sigma. To engage all employees in the ground swell to improving all processes this course provides learning relative to terminology, objectives and the role each employee can play in this effort.
