

SUPPLY CHAIN MANAGEMENT TRAINING

COURSE LENGTH: 1.0 DAYS

Supply chain management has a major impact on customer satisfaction as well as the cost of the company's products or services. The Supply Chain Management Training course by PD Training aims to provide managers with operational and managerial techniques to lower costs as well as improve customer satisfaction and the overall company competitiveness.

By the end of this course, you will have a better understanding of: what is supply chain management and how it affects customer satisfaction, the finances and logistics involved in a well-managed supply chain, definition of terms (Procurement, Upstream and downstream, etc.), levels of supply chain management, inventory management and much more.

This comprehensive course is now available in London, Birmingham, Leeds, Glasgow, Sheffield, Bradford, Edinburgh, Liverpool, Manchester and UK wide.

SUPPLY CHAIN MANAGEMENT TRAINING COURSE OUTLINE

FOREWORD

Rapid global expansion, rising fuel costs, environmental concerns and interconnected businesses can all have a tremendous impact on corporate strategies and costs. Organizations can no longer ignore what happens outside their own four walls, making supply chain management a critical and in demand field.

This course from PD Training helps meet this demand. You'll gain a better understanding of the finances, logistics and delivery of products and services and how it leads to increased efficiencies and competitiveness, while maximizing customer value and satisfaction.
